### Press Release – Structure Fire (2125 Sunnydale Street, Woodridge)

On Monday, May 30, 2022, at approximately 5:20 pm, a resident of 2125 Sunnydale Street made a 911 call and indicated that there was smoke in their garage and that the home's smoke detectors were activated.

A structure fire response was immediately dispatched, sending (4) engines, (2) ladder trucks, (2) medic units, and several Command staff officers to the scene.

The first fire company arrived on the scene at 5:25 pm and found a large amount of smoke and fire coming from an attached two-car garage. Crews deployed multiple hose lines to extinguish the large amount of fire in the garage and a vehicle burning in the driveway. Additional crews also began searching the home for any occupants and hidden fire. Those crews located one dog inside the home and safely reunited it with its owner.

Crews brought the fire under control in approximately twenty-three minutes. Units remained on scene until approximately 8:15 pm, performing salvage, overhaul, and conducting an origin and cause investigation. The cause of the fire is currently under investigation, but it does not appear to be suspicious in nature.

The Village of Woodridge Building Department deemed the home inhabitable and total damage estimates are unavailable at this time.

No civilians or firefighters were injured in the fire.

Darien Woodridge Fire Protection units were assisted by the Lisle Woodridge Fire Protection District, Downers Grove Fire Department, Tri-State Fire Protection District, and Woodridge Police Department.

The Darien Woodridge Fire Protection would like to remind everyone that smoke detectors save lives. All homes should have a working smoke detector in and outside each sleeping area and every floor of the home. In addition, the National Fire Protection Agency recommends testing them monthly and that they are replaced every ten years. For more information on smoke detectors and fire safety, please visit [www.nfpa.org/education](http://www.nfpa.org/education).

Additional information will be released as it becomes available. If you have further questions, please contact the Darien Woodridge Fire Protection District at 630-910-2200.
